

## **Stéphane Côté, President, Major Projects Division**

A determined visionary and active entrepreneur in the Montreal business district, Stéphane Côté graduated in 1992 with a major in economics and a minor in administration from Université du Québec à Montréal. Obtaining a contractor's licence from the Régie du bâtiment du Québec, he quickly developed an interest in renovation and conversion projects. The transformation of the old Hudson's Bay warehouse into lofts marks the debut of his real estate entrepreneurial career in Montreal.

In 1998, he incorporated DevMcGill and served his clients well by carrying out multi-phase and mixed-use projects that featured a classic and trendy design and revealed a unique creative talent that focused on a new lifestyle.

Always with the same vision in mind, building smart living environments for tomorrow, DevMcGill continues to enrich the lives of its residents, helping residential areas to grow and to thrive.
